Master STAGES™ Task2™ APC

All-purpose Cleaner

Master STAGES™ Task2™ All Purpose Cleaner is an industrial strength, water-based cleaning agent that does an outstanding job in the industrial environment for cleaning a variety of shop soils from all common surfaces. Task2 out-cleans all the green, crystal, purple, and blue butyl-based products you may have tried in the past.

Maintenance

Whether cleaning true grit or light soil from machines, work surfaces, glass, or floors, there's a highly-concentrated, cost-effective Master STAGES cleaner to get the job done and save hours of maintenance. So, don't just get it clean — get it Master STAGES clean! Master STAGES highly concentrated Whamex™ sump and central system cleaners for interim and full cleanouts extend sump life, are very cost effective, and greatly reduce downtime.

All Master STAGES environmentally-friendly products are safe for human contact and free of harmful, and corrosive chemicals.

Aerospace Approvals

Company	Specification
Raytheon Technologies/Collins Aerospace/Pratt & Whitney	PMC 1455

Choose Task2 APC:

- Use full strength or dilute
- Versatile all-around shop cleaner
- Pratt Whitney Aerospace Approval PMC 1455-11
- Contains no butyl, caustic, silicate, phosphate, nitrite, phenol, or borate
- Very low V.O.C. content, and conductivity
- Environmentally friendly, certified "Readily Biodegradable" by OECD Method 301D (EPA Guideline OPPTS 835.3110)
- Will not harm TRIM metalworking fluids

Task2 APC especially for:

Applications — all purpose cleaning, machine cleaning outside, parts washing, and spray bottle

Soils — coolant residues and light oils

Materials — brass, cast iron, copper, multi-metal, steels, and zinc

Industries — aerospace

Task2 APC is free of — 2-butoxyethanol (Butyl), borates, caustic, nitrites, phenols, phosphate, and silicates

Master STAGES™ Task2™ APC

All-purpose Cleaner

Application Guidelines

- Use full strength or dilute
- When in doubt, surfaces should be checked for compatibility in a hidden area
- For additional product application information, including performance optimization, please contact your Master Fluid Solutions' Authorized Distributor at https://www.masterfluids.com/th/en-th/distributors/index.php or your District Sales Manager, or email us at thailand-info@masterfluids.com.

Physical Properties Typical Data

Color (Concentrate)	Blue
Color (Working Solution)	Light blue
Odor (Concentrate)	Mild
Form (Concentrate)	Liquid
Flash Point (Concentrate) (ASTM D92-90)	> 101°C
pH (Concentrate as Range)	10.0 - 10.5
pH (Typical Operating as Range)	9.1 - 10.1
V.O.C. Content (EPA Method 24)	1 lbs/gal

All-purpose Cleaner

Mixing Instructions

- To help ensure the best possible working solution, add the required amount of concentrate to the required amount of water (never the reverse) and stir until uniformly mixed.

Ordering Information

20-liter pail

204-liter drum

1000-litre IBC

Additional Information

- Industrial use only
- Consult Master Fluid Solutions before using on any metals or applications not specifically recommended.
- This product should not be mixed with other metalworking fluids or metalworking fluid additives, except as recommended by Master Fluid Solutions, as this may reduce overall performance, result in adverse health effects, or damage the machine tool and parts. If contamination occurs, please contact Master Fluid Solutions for recommended action.
